## About the firm

We are headquartered in San Diego, with branch offices in Huntsville, Atlanta, and New Orleans and operations in Portland and Honolulu. Our areas of practice include:

- Military installation planning
- Environmental planning
- Training analysis

Since its inception in 2000, the firm has provided professional services to Army, Navy and Air Force clients in Hawaii, Alaska, Oregon, California, New Mexico, Louisiana, Pennsylvania, Minnesota, Alabama, New Jersey and several other states. Our Landscape Development Plan for McConnell AFB, KS won a 2007 design award from the US Air Force.

We pride ourselves on our responsive service to our clients' needs, our creative application of advanced technologies, and our attention to detail, quality, and customer service.

John Gallup & Associates is an SBA-certified small business enterprise and is Vietnam-veteran owned. We have active prime contracts with the Baltimore and Savannah districts and the Huntsville Center of the Corps of Engineers, as well as a GSA Professional Engineering Services schedule.

---

## Selected current projects

- Area Development Plans for MILCON projects at locations across the US, including Alaska and Hawaii.
- On-site support to the US Army Pacific G3 at Fort Shafter, HI.
- A facility utilization survey of most of the buildings at Fort Detrick, MD. This builds on our five-year involvement there, which has encompassed a full range of engineering and planning services, including DD 1391 packages for multiple projects.
- An environmental assessment and transfer plan for the BRAC closing of the Pentagon's Navy Annex and its transfer to Arlington National Cemetery.

- Requirements Analyses for multiple MILCONs at Army installations throughout the US, in Germany and Central America.
- A Real Property Master Plan for US Army facilities on Okinawa.
- Metroplex Plans for US Army Reserve Facilities in many cities across the country. This year's efforts include rollup Real Property Master Plans for the 99th and 88th Regional Support Commands, which support Army Reserve Centers across the northern United States.
- A requirements analysis for the newly formed AFRICOM in Stuttgart, and a master plan for the Stuttgart Military Community.
- Multiple planning and programming projects at Fort Detrick, MD, including DD Forms 1391 and planning charrettes for a visitor center, swimming pool, and a "Campus Green."
- A Training Investment Strategy for the Military District of Washington, which will analyze training facility requirements for the broad range Army units stationed there.

---

## Staff

Our staff of nineteen is comprised of members with extensive experience in military installation planning, NEPA studies, military training, and GIS development and implementation. We are always interested in exploring opportunities to bring new staff members aboard. We offer a generous range of benefits tailored to each employee's needs.
